ABOUT ME

Innovative Web Designer specializing in creating functional, engaging digital experiences. I combine creativity, modern design trends, and AI-assisted plus traditional development techniques to deliver products that are intuitive, visually compelling, and scalable. Skilled in HTML, CSS, React, Tailwind, and Figma, I adapt quickly to emerging technologies, optimize user experiences, and drive impactful solutions while maintaining design integrity.

EDUCATION

Sri Shakthi Institute of Engineering and Technology | 2019-2023

B.E. in Electronics and Communication Engineering

Developed analytical and problem-solving skills with a focus on technology and innovation.

WORK EXPERIENCE

CAP Digisoft Solutions Inc., | December 2023 - Present

Junior Web Designer

Designed and developed interactive prototypes in Figma, transforming approved concepts into fully functional web interfaces using HTML, CSS, Bootstrap, Tailwind, and React.js.

Implemented responsive, mobile-first designs to ensure seamless user experiences across all devices.

Collaborated in code reviews and design critiques, promoting best practices for design consistency, performance, and maintainability.

SKILLS

- HTML
- CSS
- Bootstrap
- Tailwind Css
- JavaScript
- React js
- WordPress
- Figma
- Git/GitHub

PROJECT EXPERIENCE

CAP Digisoft Solutions Inc.,

Contributed as a Web Designer to the Jugl project, crafting intuitive and visually engaging interfaces for task management, communication, and cloud storage tools.
