

Web Designer with 2+ years of experience in UI Development, specializing in building responsive, user-friendly web interfaces using HTML5, CSS3, Tailwind CSS, Bootstrap and JavaScript. Strong ability to convert Figma and UI/UX designs into pixel-perfect, cross-browser compatible, and high-performance websites.

Experienced in developing reusable UI components, optimizing website performance, and ensuring consistent design implementation across devices. Currently expanding front-end development skills with React.js, focusing on component-based architecture and modern UI practices.

Proficient in tools like Figma, Adobe Photoshop, and VS Code, with a strong focus on clean, maintainable code and efficient design-to-development workflows. Actively leveraging AI tools to speed up development and improve productivity.

SKILLS

Technologies	HTML5, CSS3, JavaScript (ES6+), React.js
Frameworks & Libraries	Bootstrap, Tailwind CSS
Tools	Figma, Adobe Photoshop, Visual Studio Code, Git, GitHub
UI Development	Responsive Web Design, Cross-Browser Compatibility, Pixel-Perfect UI Implementation, Figma to Code
Additional Skills	AI-assisted Development, Performance Optimization, Clean & Maintainable Code

TECHNICAL EXPERIENCE

WEB DESIGNER / CAP DIGISOFT SOLUTIONS
Jugl AI

December 2023 — March 2026
Coimbatore, Tamilnadu

- Designed and developed responsive UI for a business communication platform using React.js, Tailwind CSS, JavaScript and Git.
- Converted UI/UX designs into pixel-perfect, reusable components using modern front-end practices.
- Managed version control and code updates using Git for efficient collaboration.
- Optimized UI performance and ensured smooth user experience across multiple devices.
- Improved code maintainability by structuring reusable components and modular CSS.
- Enhanced user interface consistency by following design system guidelines and best practices.

uniconinter.com

- Developed a corporate website using React.js, Bootstrap, JavaScript, and Git with a focus on structured layout and usability.
- Built responsive UI components and improved content hierarchy for better user understanding.
- Integrated interactive elements and maintained code using Git version control.
- Collaborated on UI updates based on business requirements and feedback.
- Improved page structure and layout alignment to enhance overall user navigation experience.
- Ensured consistent UI implementation across multiple pages by following reusable component practices.

Ekko AI

- Contributed to the development of an AI-powered web application designed to generate personalized LinkedIn posts for users.
- Developed responsive user interfaces using React.js, JavaScript, and modern CSS frameworks.
- Implemented user workflows for connecting LinkedIn accounts and generating tailored content.
- Integrated AI-based content generation features to simplify professional content creation.
- Worked on feature development and UI enhancements for a product in development.

EDUCATION

Bachelor of Engineering in Electronics and Communication, Sri Shakthi Institute of Engineering and Technology
Built strong analytical and problem-solving skills with a focus on technology, development, and innovation

2019 — 2023
